Office Action Summary

Art Unit: 1733

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-4, drawn to a polyolefin article, classified in class 428, subclass 500 or 523.
- II. Claims 5-8 and 11-12, drawn to a bonding process, classified in class 156, subclass 308.6.
- III. Claims 9-10, drawn to another bonding process, classified in class 156, subclass 309.6.

2. The inventions are distinct, each from the other because: the inventions of Groups I-III are held/seen to be mutually independent and distinct, none of these respectively inventions requiring the particular of the others, as follows: (a) the Group I invention (^{article}~~product~~) defines a single layer ~~product~~^{article}, which would clearly not be formed/made by the lamination processes of Groups II and III, which results in the formation of multi layer articles/laminates; and (b) the Group II (^{invention}~~method~~) constitutes a SOLVENT bonding process, while the Group III invention (method) constitutes a FUSION bonding process.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as, shown by their different classification, and since the fields of search are not coextensive, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37

CFR 1.143).

Art Unit: 1733

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to **J. J. GALLAGHER** whose telephone number is (703) 308-1971.
